DOZER

Current Challenges

- **Prohibitive Gas Fees** & Business Development Costs.
- **User & Developer Complexity** hindering adoption.
- **Market Inefficiencies** like MEV & Slow Transactions.

The Solution

Dozer Finance, built on the Hathor Network, shatters these barriers with its hybrid DAG architecture, offering **zero-fee transactions**, **inherent MEV protection**, and **no-code Web3 tools**.

The Edge: Built Different

Unfair Advantages

- **Zero/Ultra-Low Fees**
- **Inherent MEV Protection**
- **No-Code Web3 Toolkit**
- **Instant Transaction Finality**
- **Bitcoin-Grade Security**
- **True Decentralization & Scalability**

Powered by Innovation

- **High TPS:** Hybrid DAG + Blockchain with 10k+ TPS proven capacity.
- **Consensus:** Proof-of-Work (BTC Merged) + DAG efficiency.
- **Intent-Based Architecture:** Simplified user interactions.
- **Nano Contracts:** Secure, Python-based for custom logic.
- **Randomized TX Ordering:** Core to MEV resistance.

Product Suite

Trading Platform
Zero-fee, MEV-resistant swaps with instant finality.

Lending Protocol
Borrow or earn yield in a secure, decentralized market.

No-Code Toolkit
Smart contract templates for fast, easy Web3 launches.

EVM and Solana
Seamless cross-chain compatibility with major ecosystems.

Token Utility

Governance
DAO participation, shaping the protocol's future.

Staking & Security
Earn rewards, enhance protocol security.

Liquidity Incentives
Drive Total Value Locked (TVL) and reward LPs.

Premium Access
Unlock exclusive features and growth initiatives.

Key Milestones Ahead

DeFi's $80B Future Needs a Solution Like Dozer to Unlock Mass Adoption.
